

# ONE RETENTION HOLSTER FOR MULTIPLE HANDGUNS. INTRODUCING THE *NEW* OMNIVORE™

URBAN GRAY/BLACK

COYOTE TAN/BLACK

Multiple holsters for multiple handguns is no longer an issue. The BLACKHAWK!® OMNIVORE™ is a multi-fit holster that accommodates more than 150 styles of semi-automatic handguns with an accessory rail. The active retention mechanism doesn't wear the handgun's finish. It locks onto our proprietary Rail Attachment Device in the Non-Light Bearing model; and onto the frame of the light in the Streamlight and Surefire models. A thumb release disengages the locking mechanism when drawing the handgun.

The OMNIVORE™ represents the future in retention holster technology, and delivers unparalleled firearm access.

## MARKET RELEASE DATE:

June 2017

- **MULTI-FIT** - OMNIVORE™ Holsters fit more than 150 styles of semi-automatic handguns with an accessory rail.
- **ACTIVE RETENTION MECHANISM**- Ergonomic thumb-activated retention mechanism delivers instant firearm access.
