

# HEVI-BISMUTH PEST CONTROL SHOTSHELL

You don't get to choose when or where you'll encounter dangerous, damaging pests. Be prepared to take them out with new CCI® HEVI-Bismuth™ centerfire handgun shotshells. They're built on CCI's proven centerfire handgun shotshell design but are loaded with the Catalyst™ lead-free primer and HEVI-Bismuth pellets alloyed and cast in Sweet Home, Oregon. At 9.6 g/cc, the shot carries nearly the same density and downrange energy as lead, but adheres to all non-toxic ammunition requirements.
