

UPPERCUT DEFENSE

Protection should always be personal. Built for how you carry. Crafted for how you defend. Sized to match any shooter. New CCI® Uppercut™ answers that call with power and performance traditional 22 Long Rifle ammunition has never been able to deliver. The difference lies in its exclusive 32-grain projectile. Unlike the simple lead round nose or copper-plated hollow points typical of most rimfire ammunition, Uppercut's jacketed hollow point bullet features nose skiving that initiates full and reliable expansion through semi-automatic handguns with 2.5- to 4-inch barrels, while retaining the weight needed to hit critical penetration depths. Plus, CCI's legendary priming ensures it will always be ready when needed.
