

DURASEAL SOUP CAN

MARKET RELEASE DATE:

October 31, 2015

Champion's Soup Can target was designed as a fun target that you can fill with water, flour or a similar consistency powder so you can get a visible shot indicator without having to mix chemicals to get a reaction. When you bullet passes through the target, the powder or water inside will compress, pop the lid off of the target and leave a visible cloud so you know you hit your mark. This target is made from the revolutionary DuraSeal™ material, a non-metal, self-sealing target that lets bullets pass through with minimal damage.

FEATURES

- » Self-Healing material for ultimate target longevity
- » Handles .17 caliber up to .50 caliber rifles or handguns
- » High-Visibility
- » Fillable with water, chalk or flour
