

## ACTION SHOTGUN

Rule every 3-gun stage and anywhere you compete with the hard-hitting performance and reliable feeding of new Federal® Action Shotgun™. The loads' roll crimp adds rigidity, improving cycling through both tube- and magazine-fed shotguns. The 1 ½-ounce payload of high-quality No. 7.5 lead pellets is pushed out the muzzle at 1,235 fps. This velocity strikes the perfect balance—providing the power needed to knock down targets and the shootability to run through a course with both speed and precision.

### FEATURES & BENEFITS

- Roll crimp adds rigidity for use in tube- and magazine-fed competition shotguns
- Plated steel head for reliable feeding and extraction
- 1 ½-ounce payload of lead shot
- 1,235 fps velocity balances power, speed and precision
- Designed specifically for competition
- Offered in 200-round cases
