Custom Shop Rifle

Custom Shop Waypoint

Some hunters go farther, push harder and find their own unique path to success. They're the select few who inspired the creation of the Model 2020 Waypoint rifle from Springfield Armory and the all-new special-edition Federal® Custom Shop™ ammunition that fuels it. Combined, they offer customization and performance you won't find in other factory firearms or ammunition. Federal Custom Shop engineers worked hand-in-hand with Springfield during the development of the rifle to design ammunition specifically tailored to the new platform, optimizing every aspect of the loads for the utmost accuracy. And like every Federal Custom Shop offering, special-edition Model 2020 Waypoint rounds are hand-loaded to your individual order by our team of experts, using your choice of Federal Premium® Terminal Ascent™ or Nosler® AccuBond® bullets and components, and held to our tightest standards for quality.

Features & Benefits

- Federal Custom Shop loads designed in cooperation with Springfield Armory to ensure the best accuracy in the Model 2020 Waypoint rifle
- Customers can choose between Federal Premium® Terminal Ascent and Nosler AccuBond bullet offerings
- Rounds are handloaded to order by Federal's team of experts
- Built with the finest brass, primers, propellant and held to our tightest quality control standards
