

FREIGHT TRAIN COPPER SLUG

Slug accuracy and power are thundering down the tracks with the new Federal Premium® Freight Train™ Copper, the first introduction in an all-new lineup of slugs. The load's streamlined copper projectile and exclusive sabot design team up to print groups of less than 4 inches at 200 yards through rifled barrels. A polymer tip and aerodynamic nose profile maximize downrange energy, while the externally skived nose cavity provides dramatic expansion to drop bucks, bears or boars where they stand.

FEATURES & BENEFITS

- Sabot aligns the slug within the bore and separates consistently at the muzzle for peak accuracy
- Groups of less than 4 inches at 200 yards
- Deep, externally skived slug cavity provides consistent, aggressive expansion across a broad velocity range
- Polymer tip and aerodynamic profile maximize downrange velocity and energy
- Meets lead-free ammunition requirements
