Swift Scirocco II

Hunters have more ways to extend their effective range with new Federal Premium® Swift® Scirocco® II loads. Now available in 350 Legend, 450 Bushmaster and 224 Valkyrie The bullet's streamlined design and high ballistic coefficient produce flat trajectories, while retaining more velocity and energy downrange. Aided by its proprietary polymer tip, the Scirocco II expands at minimal velocities yet offers high weight retention at close range thanks to its bonded copper jacket.

Features & Benefits

- New 350 Legend, 450 Bushmaster and 224 Valkyrie loads
- Proprietary polymer tip improves ballistics and initiates low-velocity expansion
- Advanced secant ogive maximizes ballistic coefficient
- Tapered copper jacket bonded to lead core
- High weight retention at close range
- Expands reliably at low velocity for long-range terminal effect

Part No.	Description	UPC	MSRP
