### Reloading

#### Terminal Ascent Heavy Component Bullets

Heavy-for-caliber bullets can extract more long-range performance from your favorite rounds, That's why Federal® is proud to offer three new heavy projectiles in the already legendary Terminal Ascent™ component bullet lineup. The 155-grain .277, 175-grain .284 and 215-grain .308 bullets' bonded construction fuels deep penetration on close targets, while the patented Slipstream® polymer tip initiates expansion at velocities 200 fps lower than comparable designs. A long, sleek profile offers an extremely high ballistic coefficient, and AccuChannel® groove technology improves accuracy and minimizes drag.

#### Features & Benefits

- New heavy-for-caliber .277, .284 and .308 component bullets
- Match-grade long-range accuracy in a bonded hunting bullet
- Extremely high ballistic coefficient
- Exclusive Slipstream polymer tip helps flatten trajectories and initiate low-velocity expansion
- Less wind drift and drop
- AccuChannel groove technology minimizes drag
- Copper shank and bonded lead core retain weight for deep penetration at any range

Part No.	Description	UPC	MSRP
PB277TA2	.277" 155 GR Terminal Ascent Component	6 0454467345 6	\$54.99
PB284TA2	.284" 175 GR Terminal Ascent Component	6 0454467346 3	\$54.99
PB308TA3	.308" 215 GR Terminal Ascent Component	6 04544 67347 0	\$54.99
