

## 2014 NEW PRODUCTS

### DIES

---

#### **.26 Nosler Full-Length Die Set**

RCBS continues its long track record of supporting ammunition product introductions with its Full-Length Die Set for the new .26 Nosler.

Like all RCBS Group D dies, the .26 Nosler offerings are made from hardened steel with inside surfaces that have been precision-drilled, reamed and polished to precise standards. The dies have large, easy-to-adjust hex-lock rings, standard 7/8-inch-14 threads, and are packaged in stackable plastic storage boxes.

#### **Features & Benefits**

- Set includes Full-Length Sizing Die and Roll Crimp Seating Die
- CNC machined to precise tolerances
- Hardened steel construction
- Standard 7/8-inch-14 thread
- For use with RCBS #38 Shell Holder
