

224 Valkyrie: Premier Match, Premier AccuTip-V, UMC

Flat shooting long-range 224 Valkyrie is taking the shooting and hunting worlds by storm. Available in three new products, competitive shooters, hunters, and range aficionados can choose between 224 VLK loads for any situation. Featuring a 90-grain Sierra Matchking, (Premier Match) 60 grain AccuTip-V, (Premier AccuTip-V) or trusted 75-grain FMJ (UMC Rifle), Remington is bringing new options to the bench, blind and beyond.

FEATURES

- Three new 224 Valkyrie loads
- Quality Remington brass, propellants and primers
- Premier Match is carefully loaded to knock steel or punch accurate holes with less wind drift and drop at long ranges with world-class accuracy
- Premier AccuTip-V features explosive on-varmint performance, with a unique bullet design giving both expansion and quick energy transfer
- UMC Rifle built from quality Remington components and available at range-ready pricing
