

A large, semi-transparent image of a Remington 700 rifle is positioned vertically in the background, spanning most of the page's height. The rifle is shown in a dark, almost black color, contrasting with the green-tinted forest background. The background itself is a lush, green forest scene with rolling hills and a person in the foreground.

**NEW FOR 2024**

**PREMIER CuT**  
COPPER TIPPED

**NEW PREMIER CuT**

**CUT THROUGH. NEAR OR FAR**

Premier CuT's monolithic copper alloy bullet gives high accuracy and terminal performance across all hunting ranges. Maximize your aerodynamic efficiency and weight retention with optimal penetration, lead-free. Loaded with Remington's best components, Premier CuT is your new copper tipped option for ultimate precision. Available in a lineup of popular big game centerfire cartridges, including 6.5 PRC, 7 PRC and 300 PRC. Page 11.

**NEW BULLETS 360 BUCKHAMMER**

**AMERICA'S FAVORITE NEW DEER CARTRIDGE**

360 Buckhammer's taken the whitetail woods by storm. Newly available in Core-Lokt Tipped and Core-Lokt Copper, 360 BHMR brings more velocity and energy than 30-30 WIN or 350 Legend in a straight-wall package. With 360 BHMR, your deer season is Straight Up Better. Page 19.

**NEW CORE-LOKT COPPER**

**THE DEADLIEST MUSHROOM IN THE WOODS. NOW IN ALL COPPER**

The performance you know and expect from Core-Lokt, lead-free. High-strength copper projectiles and a precision hollow point ensures you dispatch deer with true Deadly Mushroom performance. Available in a line of popular big game hunting cartridges, including the hottest new round in the deer woods, 360 Buckhammer. Page 25.

**NEW 22 GOLDEN HUNTER**

**RIMFIRE HUNTING'S GOLD STANDARD**

Small game beware! Golden Hunter's plated hollow points are ready for a 22LR takedown. At home on a squirrel, rabbit, or any small game hunt, 22 Golden Hunter reliably expands for quick force transfer on target. Available in 40-grain, 100 or 550-round cartons. Page 81.

**NEW RANCH HAND**

**YOUR RIMFIRE RIDE OR DIE**

Ranch Hand stands as Remington's most reliable .22LR round to date. With our state-of-the-art .22 technology enhancements, each round delivers top-tier performance in every rimfire pistol or rifle. Whether you're engaging in small game or varmint hunting, Ranch Hand's copper-plated projectiles, available in both hollow point and round nose options, showcase our commitment to quality. Conveniently packaged in 100-round packs, Ranch Hand ensures a premier shooting experience. Yeehaw! Page 81.

**NEW FOR 2024**

**NEW**  
**NITRO STEEL DUPLEX**

**TAKE 'EM! DEADLY DUPLEX DUAL SHOT**

Remington's Duplex shells are back and ready for your duck blind. Loaded with two different sizes of steel shot, Nitro-Steel Duplex gives ultimate performance near and far. Available in four 12-gauge shot combinations with more load options coming soon. Page 40.

**NEW**  
**LOW DECIBEL**

**BREAK CLAYS WITH LESS RECOIL AND NOISE**

Remington Low Decibel is the best .410 Bore answer for shooting subsonic shotshells. With a muzzle velocity of only 550 fps, your recoil is reduced without sacrificing dense, clay-busting patterns downrange. Turn down the noise and turn up the fun with Remington Low Decibel. Available in .410 Bore, 2 3/4", 1/2oz. 9 shot 550 fps. Page 63.

**NEW**  
**NITRO PIGEON**

**PREMIER PIGEON PERFORMANCE**

Remington Nitro Pigeon is specifically engineered to accurately take down fast-rising doves and upland game. Maximizing your shell's pattern, velocity and consistency, Nitro Pigeon's premier quality ensures fewer birds lost and more in your bag. Available in 12-gauge, 2-3/4", 1-1/4oz, 7-1/2 shot, 1230 fps. Page 47.

**NEW LOAD**  
**NITRO SPORTING CLAYS**

**A CHAMPIONSHIP SHELL**

Specially engineered for the sporting clay enthusiast and competitor, new 12-gauge. 1oz., 7 1/2 shot, 1290 fps load available. Page 59.

**NEW BULLET**  
**PREMIER ACCUTIP MZ**

**DEADLY ACCURATE ACCUTIP – NOW FOR MUZZLELOADERS**

Remington's Premier AccuTip MZ sabot bullets are exclusively engineered to drop big game this muzzleloader season. Using the patented PowerPort Tip, expect high ballistic coefficient, accuracy, and flat trajectories at the furthest reaches of your muzzleloader's range. Bonded 260-grain bullets hit hard and load easily. For 50 caliber traditional or modern muzzleloading rifles. Page 32.

**NEW**  
**2024 BULLET KNIFE**

**INTRODUCING THE WATERFOWLER**

Celebrate the annual tradition of Remington's iconic Bullet Knife. Hailed as America's most collectible pocketknife, this American-Made favorite is a limited edition. Page 89.

**NEW FOR 2024**

**NEW**

## CORE-LOKT HANDGUN

**THE DEADLIEST MUSHROOM – HANDGUN READY**

New for the 2024 hunting season, Core-Lokt Handgun lets every pistol and revolver hunter shoot the ammo that has dropped more deer than any other since 1939. Tuned for pistol-length barrels and velocities, get ready for your next whitetail, hog, or black bear excursion with Core-Lokt Handgun. Available in 357 Magnum, 41 Remington Magnum, 44 Remington Magnum, or 10MM AUTO. Page 67.

**NEW**

## RIFLE HUNTING LOADS

**COMING THIS SEASON**

An expanded selection of centerfire rifle big game cartridges is on the horizon. Embrace hunter-approved Core-Lokt Tipped and Premier Long Range options to elevate your hunting season to new levels of lethality.

**Core-Lokt Tipped:** 360 Buckhammer, 7mm-08 Remington, 6.5 PRC, 7 PRC, 300 PRC. Page 21.

**Premier Long Range:** 6.5 PRC, 7 PRC, 300 PRC. Page 13.

**NEW**

## UMC LEADLESS

**LEAD-FREE RANGE PERFORMANCE**

Re-engineered and retooled, UMC Leadless features a new generation of improved, non-lead bullets ready for your range. New Catalyst clean priming technology eliminates lead exposure at the firing line, while copper jacketed compressed core projectiles reduce splash back from steel targets near or far. Duplicating the ballistics of conventional lead core ammunition, new UMC Leadless is available in 223 Remington and 9MM Luger. Page 78.

**NEW**

## REMINGTON RANGE BAGS & GUN CASES

**PREMIER, FIRST IN THE FIELD, AND GUN CLUB**

Designed by hunters and shooters for the range, field and blind. Remington's new accessories gets you ready to roll with a full line of gun cases, shell pouches and range bags. Built for convenience, protection and accessibility, you'd be hard pressed to find a style that doesn't suit the needs of your pistol, shotgun or rifle pursuit. Page 95.

# PREMIER LONG RANGE

FEATURING  
**SPEER IMPACT**

**NOW AVAILABLE: 6.5 PRC, 7PRC, 300 PRC**

Previously available only to handloaders, Speer's groundbreaking Impact bullet is loaded in a full line of big game ready factory ammunition, exclusively from Remington. Tough bonded construction penetrates deep on closer targets, while the patented Slipstream tip initiates expansion at velocities 200 fps lower than standard polymer tips.

The projectile's sleek construction and tightly-tapered hybrid ogive combined with its boat-tail ensures a high ballistic coefficient and all the advantages of match-grade accuracy.

Combined with carefully selected brass, propellants and primers, Premier Long Range is ready to perform at any distance that you are.

## 1 SLIPSTREAM TIP

High ballistic coefficient for flat trajectory and ultimate accuracy. Helps initiate expansion at a wide range of velocities

## 2 SPEER IMPACT BULLET

Chemically fused bullet jacket and core designed to stop separation and impart maximum retained energy and weight impact on target

## 3 AERODYNAMIC DESIGN

Boat tail bullet and rear adjusted center of gravity assists truer flight and long range accuracy

## 4 PREMIER COMPONENTS

Highest-quality Remington primers and propellants chosen in combination for ultimate performance across spectrum of environmental conditions

# PREMIER SCIROCCO BONDED

**A TIPPED BULLET THAT POWERS THROUGH**

Big game beware because the remarkable Scirocco bullet by Swift is coming for you. As the leader in bonded, tipped bullets, Scirocco delivers the highest ballistic coefficient, the flattest trajectory, and unsurpassed accuracy. Combined with maximum retained energy and superior weight retention, it's unquestionably the toughest polymer-tipped bullet on bucks, bulls, and boars at all ranges. Powerful performance. Ultimate accuracy. Big game won't know what hit 'em.

**EXPANDS RELIABLY OVER A WIDE RANGE OF TERMINAL VELOCITIES**

# PREMIER ACCUTIP-V

**PRECISELY THE VARMINT HUNTING BULLET OF YOUR DREAMS**

Optimized to deliver superior match-grade accuracy and maximum downrange energy whenever, and wherever you need it, every time. Specially engineered for varmint hunting, AccuTip-V bullets are optimized for match-grade accuracy and explosive on-game results. At impact, its gold polymer tip is driven rearward causing the thin jacket and soft lead core to fragment violently.

# PREMIER ACCUTIP

**THE BEST BUSHMASTER BULLET EVER BUILT**

Premier AccuTip loaded in 450 Bushmaster has consistently proven its accuracy and lethality on big game, making it one of the most impactful projectiles ever conceived. Featuring the unique Remington AccuTip, this straight wall slayer is ready to take on your hunting season with accuracy and power.

NEW

# 360 BUCKHAMMER

AMERICA'S FAVORITE NEW DEER CARTRIDGE

Remington 360 Buckhammer hammers critters and outperforms the competition. It delivers flat trajectories, boasting more bone-busting energy and velocity up to 200 yards compared to the 350 Legend or the venerable 30-30 WIN. The 360 BHMR flattens big game with precision. Accurate, deadly, and easy to shoot, the 360 Buckhammer stands as the Straight Up Better straight wall cartridge.

**Coming 2024** new 360 BHMR ammo offerings in Remington's award-winning Core-Lokt Tipped and Core-Lokt Copper.

With a variety of firearm options available from numerous manufacturers, inquire with your dealer about acquiring a Buckhammer gun today.

## THE STRAIGHT WALL CARTRIDGE THAT FLATTENS THEM ALL

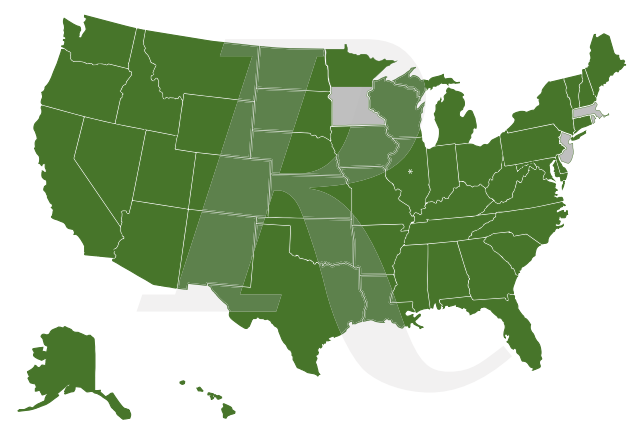

- ▲ **BETTER THAN 350 LEGEND OR 30-30 WIN**  
More velocity and energy - with less drop - and comparative recoil to competitive straight wall cartridges
- ▲ **ULTIMATE STRAIGHT WALL CARTRIDGE OPTIMIZED FOR LEVER ACTION RIFLES**
- ▲ **ACCURATE AT 200+ YARDS**
- ▲ **EASY TO SHOOT, LOW RECOIL**
- ▲ **MASSIVE .358 DIAMETER BULLETS**  
Delivering brush-busting, deadly results on-game.
- ▲ **AVAILABLE IN CORE-LOKT, CORE-LOKT TIPPED AND CORE-LOKT COPPER**

## CORE-LOKT

THE DEADLIEST MUSHROOM IN THE WOODS.

High-weight retention & controlled expansion Core-Lokt bullets make 360 BHMR deadly on game and a perfect fit in your deer camp.

# THE DEADLIEST MUSHROOM. NOW EVEN DEADLIER.

## CORE-LOKT TIPPED

**NOW AVAILABLE: 360 BUCKHAMMER, 7MM-08 REMINGTON, 6.5 PRC, 7 PRC, 300 PRC**

Core-Lokt Tipped has earned hunter approval, with the development of thousands of rounds and millions of rounds sold. It undeniably lives up to the legacy of The Deadliest Mushroom in the Woods. With a track record of proven on-game performance, enhanced accuracy, and extended long-range potential, this iconic ammunition has become even more renowned. Core-Lokt Tipped seamlessly integrates truer flight, flatter trajectories, and devastating terminal energy, making it the consistent choice for serious hunters worldwide.

As we step into 2024, gear up for an even more formidable hunting experience with the deadly Core-Lokt Tipped. Explore our latest cartridge offerings, featuring the 360 Buckhammer, 7mm-08 Remington, 6.5 PRC, 7 PRC, and 300 PRC to elevate your next hunt to new heights.

### 1 BIG GREEN POLYMER TIP

Improves long-range ballistics, in-flight accuracy, and initiates rapid expansion

### 2 PROVEN CORE-LOKT JACKET

Tuned for optimal performance on big game

### 3 MATCH-GRADE ACCURACY

Rear-adjusted center of gravity and boat-tail design maximize accuracy

### 4 PREMIER BRASS

Factory fresh brass built to the highest of standards

### 5 ADVANCED PROPELLANTS

Carefully chosen propellants for a clean burn and utmost accuracy

### 6 REMINGTON PRIMER

Steady and consistent ignition when it matters most

# CORE-LOKT

RULING THE WOODS FOR OVER 80 YEARS

Since 1939, Core-Lokt has been a whitetail's greastest adversary. As America's original controlled expansion bullet, it's filled more tags on more continents than any other load. Core-Lokt's tapered copper jacket is locked to a solid lead core to deliver massive 2X expansion, weight retention, and consistent on-game results. No matter your cartridge, grain weight or game of choice, Core-Lokt has a bullet option for you. Core-Lokt has ruled the woods for over 80 years. The buck stops here.

## 1 SOFT POINT SHAPE

Provides broad frontal area for high-energy impact and rapid expansion

## 2 SPITZER PROFILE

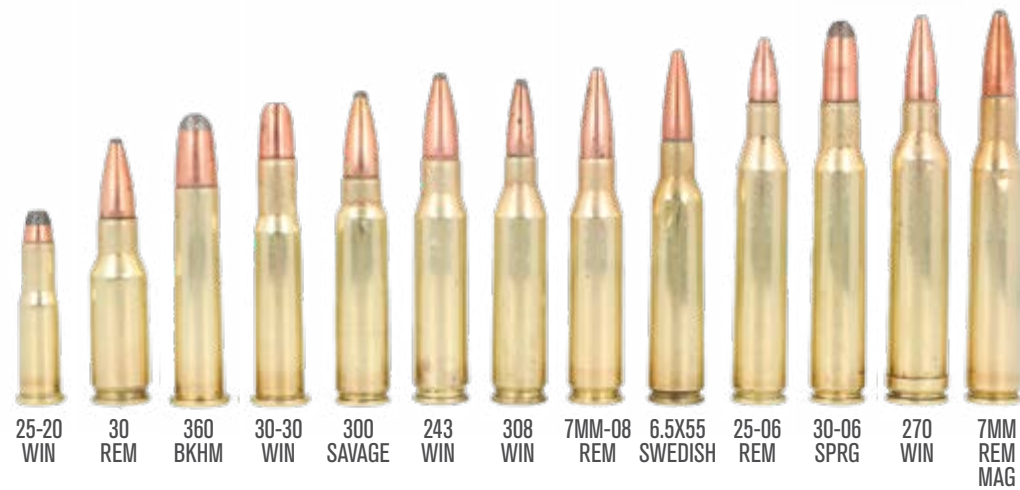

For improved velocity and flatter trajectory

## 3 BULLET CORE "LOKT" IN PLACE

To provide deep penetration

## 4 JACKET DESIGNED FOR PROGRESSIVE, RELIABLE EXPANSION

To almost twice the original diameter

### AMERICA'S LARGEST ASSORTMENT OF HUNTING CARTRIDGES

Core-Lokt has more cartridge, caliber, and grain weight options than any other line of hunting ammo. No wonder so many hunters choose Core-Lokt every fall.

# MAKING THE MUSHROOM

From the brass cup that becomes Core-Lokt's famous jacket to the carefully cut lead that becomes the hard-driving core, Core-Lokt's proven performance has been proudly made in Remington's Lonoke, Arkansas factory since 1969.

# CORE-LOKT TIPPED

THE DEADLIEST MUSHROOM'S GONE LONG RANGE. PAGES 21-22

Haven't you heard? Core-Lokt Tipped takes this classic hunting ammo even farther.

**LEAD FREE BULLET**

**NEW**

# CORE-LOKT COPPER

**THE DEADLIEST MUSHROOM IN THE WOODS. NOW IN ALL COPPER**

The performance you know and expect from Core-Lokt, in a lead-free bullet. Deadly dependable expansion, weight retention, and drop-dead accuracy all combine to maximize your hunt. Rigid construction from a high-strength copper alloy ensures Core-Lokt Copper's monometal bullet dispatches big game.

- 1 ACCURATE MONOMETAL BULLET**  
All-copper projectile made from high-strength alloy
- 2 CORE-LOKT LEVEL PERFORMANCE**  
Precision hollow point for consistently deadly expansion and penetration on big game, across a wide range of velocities
- 3 TRUSTED QUALITY COMPONENTS**  
Reliable brass, propellants and precision loading techniques for consistency
- 4 LEAD-FREE AMMUNITION**  
Available to hunt with in areas requiring the use of non-lead ammunition, without sacrificing the performance of traditional ammo

150 grain Core-Lokt Copper shot from 30-06 SPRG shows the Core-Lokt penetration and energy transfer on target you trust.

# CORE-LOKT MANAGED-RECOIL

**HALF THE RECOIL - TWICE THE CONFIDENCE**

For years, shooters sought a low-recoil load, often by reducing gunpowder. However, this compromised bullet expansion and on-game performance. The gap between low recoil and effective hunting performance seemed insurmountable until now. Managed-Recoil Centerfire Ammunition provides Remington's trusted hunting performance up to 200 yards with half the recoil. How? Through a specialized bullet designed for lower velocity, ensuring 2X expansion with over 75% weight retention within 50 to 200 yards. The result is high-performance, Remington-quality ammunition with just half the felt recoil you expect.

# SUBSONIC RIFLE

**BREAKTHROUGH ACCURACY THAT NEVER BREAKS THE SOUND BARRIER**

Remington Subsonic is engineered for optimal performance when paired with a suppressor. Loaded with premier components under stringent quality controls, this load delivers consistent, subsonic velocity to prevent supersonic cracks. Full profile full metal jacket bullets with an open tip and flat base help reduce lead build up in your suppressor.

### 1 ON TARGET OR VARMINT

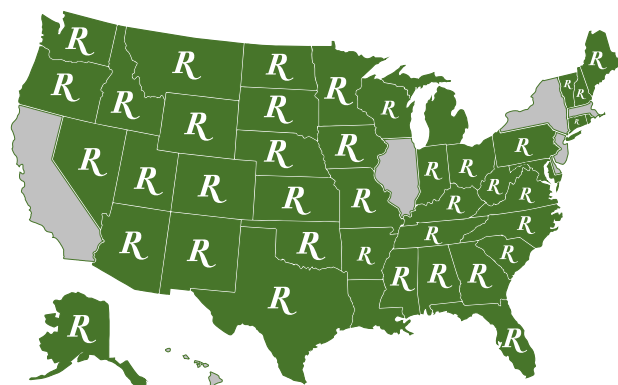

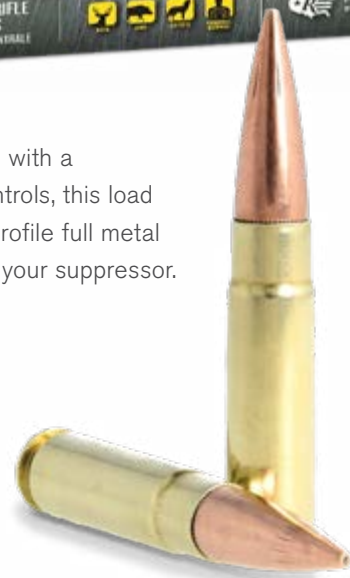

Open tip flat base bullets are accurate at common 300 Blackout ranges with moderate expansion. Bullet helps eliminate lead buildup in your suppressor

### 2 SUBSONIC VELOCITY

Propellant mix prevents supersonic cracks with minimal muzzle flash and consistent velocities

### 3 PREMIER QUALITY

Remington's best components combined with tight manufacturing controls

- Legal to own a suppressor
- Illegal to own a suppressor
- R Legal to hunt with a suppressor

DISCLAIMER: INDIVIDUAL STATE LAWS WILL VARY. PLEASE CONSULT A LAWYER BEFORE ATTEMPTING TO PURCHASE A SUPPRESSOR. THIS GRAPHIC SHOULD BE USED FOR GENERAL GUIDANCE ONLY. ALWAYS CHECK YOUR LOCAL REGULATIONS.

## YOUR MUZZLELOADER'S ULTIMATE PERFORMANCE ADVANTAGE.

### UNLEASH ULTRA MAGNUM LOADS

With a dependable and durable design made of primed centerfire brass, the UML Ignition System handles 200-grain magnum charges, resulting in lethal 300-yard performance. For maximum burn and efficiency, use up to four (4) Hodgdon Triple Seven 50 grain pellets to safely achieve 2,400 fps (muzzle) in the Remington Ultimate Muzzleloader.

Do not load your muzzleloader in a way that is not prescribed by its owner's manual.

NEW

# PREMIER ACCUTIP MZ

DEADLY ACCURATE ACCUTIP - NOW FOR MUZZLELOADERS

Remington introduces the cutting-edge Premier AccuTip MZ sabot bullets, meticulously crafted for unparalleled performance during this muzzleloader season. Engineered exclusively for dropping big game, these bullets feature the patented PowerPort Tip, ensuring a remarkable combination of high ballistic coefficient, accuracy, and flat trajectories even at the extreme distances of your muzzleloader's range. The bonded 260-grain bullets deliver powerful impact and easy loading, making them suitable for both 50 caliber traditional and modern muzzleloading rifles.

- 1 POWERPORT TIP**  
Accurate, precise, consistent accuracy. Same proven technology as Remington's popular Premier AccuTip Slug.
- 2 HIGH STRENGTH BONDED JACKET**  
Made from hard-hitting cartridge brass, bonded projectile penetrates deep, with 97%+ weight retention and over 100% expansion at 200 yards.
- 3 EASY LOAD SABOT**  
Easily seat your projectile, even with a fouled barrel. Ideal for quick follow up shots.
- 4 TESTED AND PROVEN**  
Deadly accurate with all leading muzzleloading propellants and black powder substitutes.

# PREMIER BISMUTH

FEATURING HEVI BISMUTH™

## HEAVYWEIGHT SUPREMACY

Out-performing steel, HEVI BISMUTH's dense shot flies farther with more retained energy, giving you deadly performance at greater distances. HEVI BISMUTH's density makes smaller shot sizes viable, resulting in more pellets per payload, more shot on target, and more mornings hitting your bag limit.

Rolling prairie or flooded timber, Premier Bismuth is equally effective on upland game or waterfowl, making this your shotshell for any season.

 **ALLOYED AND CAST IN THE USA**  
BY AMERICAN WORKERS

### ▲ 22% DENSER THAN STEEL

Hits just like lead with 44% more downrange energy

### ▲ ALL-SEASON LOAD

For waterfowl or upland hunts

### ▲ HEVI BISMUTH

Proudly alloyed and cast in the USA

### ▲ SAFE TO SHOOT

in vintage barrels

### ▲ NON-LEAD

9.64g/cc density

Premier Bismuth hits with about the same density as lead.

### PREMIER BISMUTH

# WINGMASTER HD

## DEADLY TUNGSTEN BLEND

The one-stop shop in duck and goose high-density shotshell rounds. Testing proves Wingmaster HD delivers the best combination of pellet energy and pattern density resulting in high pattern energy on target. At 12 g/cc, our tungsten blend is 6% denser than lead and nearly 50% denser than steel. Wingmaster HD features higher retained energy, with uniform, smooth, round pellets for dense and efficient patterns. Expect deeper penetration and more pellets on target. If you want the most balanced tungsten waterfowl shotshell on the market, Wingmaster HD delivers.

### ▲ HIGHER RETAINED ENERGY

Denser than lead with excellent patterns

### ▲ ROUND, SMOOTH TRUE-SIZED PELLETS

Dense, efficient patterns with deep penetration

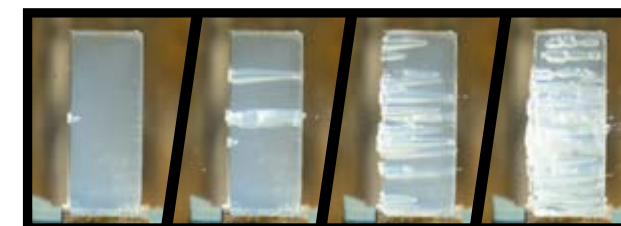

### ▲ DEEPER PENETRATION AND MORE PELLETS ON TARGET

Equal energy – 3 shot sizes smaller than steel

### WINGMASTER HD

Dense patterns. Perfect penetration.

# HYPERSONIC STEEL

**THE WORLD'S FASTEST, HARDEST-HITTING STEEL**

It's a simple fact. Most ducks are missed from behind. The good news, Remington's HyperSonic Steel's unprecedented velocity compensates by a full body length at 40 yards – on a duck flying at average speed. The end result: more pellets in the head and neck for quicker kills and fewer misses – all without changing the way you shoot. HyperSonic Steel. Taking lethality to deadlier new heights.

**QUICKER KILLS. FEWER MISSES. 11% SHORTER LEADS. MORE HEAD & NECK HITS.**

- **HIGH VELOCITY STEEL**  
(1450 fps, 1 oz.) @ 40 yds
- **HYPERSONIC STEEL**  
(1700 fps, 1 3/4oz.) @ 40 yds

**AT 1,700 FPS, HYPERSONIC STEEL GIVES YOU AN 8" LEAD ADVANTAGE AT 40 YARDS.**

- 1 UNEQUALLED LETHALITY**  
Engineered to put more pellets in the head and neck
- 2 PREMIER COMPONENTS**  
Top-shelf propellants, primers, and Remington-made hulls combine for ultimate waterfowl dependability and speed
- 3 XELERATOR WAD TECHNOLOGY**  
Remington's proprietary wad helps deliver unprecedented velocity and holds patterns tighter downrange

# NITRO STEEL DUPLEX

**TAKE 'EM! DEADLY DUPLEX DUAL SHOT**

Remington's Duplex shells are back and ready for your duck blind. Loaded with two different sizes of steel shot for ultimate performance at all ranges. Blended, high velocity magnum steel payloads give dense patterns with the smaller shot size close up, whereas the larger shot hits hard close while maintaining energy at longer ranges. Available in 4 shot combinations with more load options coming soon.

- 1 DUPLEX SHOT LOAD**  
Two shot sizes for deadly patterns at all hunting ranges
- 2 REMINGTON WAD**  
Super-tough, versatile four-petal shot cup protects barrels and performs across a wide range of choke designs
- 3 NITRO STEEL VELOCITY**  
High velocity for true magnum-blended steel payloads
- 4 ULTRA-CAPACITY STEALTH HULL**  
High base, high quality head and drab hull for less reflection in your bag or blind

# NITRO-STEEL

**MORE STEEL TO THE BIRDS  
- MORE BIRDS TO THE GROUND**

The steel serious waterfowlers depend on. High-quality, zinc-plated, 100% round pellets fly straight, delivering true close to long-range pattern performance. Plus, Nitro-Steel is fully compatible with aftermarket ported and wad-stripping chokes. It's a proprietary blend of components that produces more dead birds than any other load, year after year.

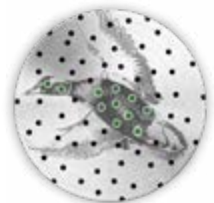

Premier zinc-plated steel pellets, engineered for higher velocity, greater uniformity, straighter flight and tighter patterns.

# PREMIER TSS

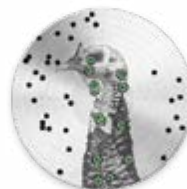

## YOUR DEADLIEST SPRING YET

Send more big ol' toms to the ground with our Premier TSS Turkey Loads. Ultra-dense Tungsten Super Shot payloads deliver increased lethal range, denser patterns, and more knockdown power. A density of 18 g/cc makes a smaller shot size viable over what you'd choose in lead, with an energy and velocity increase to boot. Every load is tuned for the tightest, most consistent patterns possible. Get ready for the deadliest turkey season of your life.

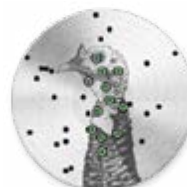

- ▲ **ULTRA HIGH-DENSITY TUNGSTEN SUPER SHOT**  
Flies farther, hits harder, and penetrates deeper
- ▲ **HIGHER ENERGY AND BETTER PATTERNS THAN LEAD**  
Provides a greater chance for success in the field
- ▲ **INCREASED PELLET COUNTS AND HITS IN THE KILL ZONE**  
Guarantees deadly performance that delivers results

# NITRO TURKEY

## NITRO TURKEY EXTENDED RANGE BUFFERED MAGNUMS

Extra-hard lead shot meets next-level patterning at a value price. With a super full choke, Nitro Turkey patterns at over 80% in the kill zone. Nine 12- and 20-gauge options give every globbler slayer shot size and payload options to help you fine tune your go-to turkey load to your shotgun and quarry.

NEW

# NITRO PIGEON

PREMIER PIGEON PERFORMANCE

Remington Nitro Pigeon loads are engineered to accurately take down fast-rising doves and upland game. Maximizing your shell's pattern, velocity and consistency, Nitro Pigeon's premier quality ensures fewer birds are lost and more in your bag.

- 1 COPPER-LOKT SHOT**  
Remington's highest quality magnum grade copper-plated hard lead shot delivers dense patterns with superior game-getting performance that knocks birds out of the sky
- 2 POWER PISTON WAD**  
One-piece unique patented wad protects and cushions shot for dependable patterns over a wide range of hunting and competition conditions
- 3 HIGH PERFORMANCE PROPELLANTS**  
Special propellant blend for tight patterns and consistent high velocity
- 4 PREMIER REMINGTON HULL**  
Best-in-class unibody hull maintains smooth performance shot after shot

# NITRO PHEASANT

ROOSTER! HIGH-SPEED UPLAND FURY

For pattern, energy and performance, nobody beats Nitro Pheasant. It uses the Remington Copper-Lokt copper-plated lead shot with high antimony content — the hardest lead we make for hunting. Hard shot stays rounder for truer flight, tighter patterns and greater penetration. When it comes to bringing down tough birds like pheasants, you need a load that delivers maximum pattern density and lethal energy—you need Nitro Pheasant. Available in high velocity and magnum loads in 12- and 20-gauge.

## PHEASANT LOADS

The high velocity and long-range performance of Remington Pheasant Loads are just right for any rooster, quail, chukar, grouse, or even woodcock situation. Standard high-brass payloads include 12-, 16-, and 20-gauge.

## NITRO MAGNUM EXTENDED RANGE BUFFERED

Equally excellent for bagging upland feathers and fur. Heavy payloads of magnum-grade shot are packed with polymer buffering and enclosed in our Power Piston one-piece wad to provide dense, even patterns and uniform shot strings.

# ULTIMATE DEFENSE BUCKSHOT

## DEFENSE DELIVERED

Ultimate Defense Buckshot rounds deliver dense, devastating patterns and massive knockdown power when the stakes are at their highest. Short-range patterns in smoothbore barrels are tight and effective for one-shot confidence. Full power 12-gauge, and Managed-Recoil 12- and 20-gauge loads complete this line by offering buckshot products well suited to anyone's desire for maximizing their shotgun's effectiveness against an imminent threat.

### 1 MULTIPLE PAYLOAD OPTIONS

Choose from hard-hitting 8-pellet 00 to 41-pellet 4-buck shot options

### 2 ULTIMATE RELIABILITY

High brass head, carefully loaded shells and Remington-built primers for feed, function and fire in any circumstance

Dense pattern and optimal penetration for reliable defense.

## EXPRESS MAGNUM & EXPRESS BUCKSHOT

### BIG BUCK - BIGGER PAYLOAD

One of the great values in shotgun deer loads. A combination of heavy cushioning behind the shot column and a granulated polymer buffering helps maintain pellet roundness for tight, even patterns. Available in magnum offerings, plus 15-round count packaging.

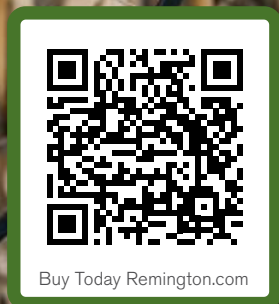

## EXPRESS BUCKSHOT BUFFERED VS EXPRESS BUCKSHOT MAGNUM

Express Magnum Buckshot packs more shot into your shell than our standard loads. Increase the odds with more pellets on target in every round.

# PREMIER ACCUTIP SABOT SLUG

**PUNCHES HUGE HOLES WITH PINPOINT ACCURACY**

It's flattening whitetails and competitors in the tipped-slug market with devastating ferocity. A true masterpiece of aerodynamics delivering tremendous knockdown force to the farthest reaches of rifled shotgun range. Spiral nose cuts and high-strength cartridge-brass jacket come together to create large, perfect mushrooms with over 95 percent weight retention from 5 to 200 yards. Available in 2 3/4" or 3", 12-gauge and 20-gauge.

## 1,900 FPS FLAT-OUT CRUSHES BIG GAME.

Premier Accutip Slug's devastating impact energy and force transfer shown at 50 yards.

- 4 SLUG JACKET MADE FROM HIGH-STRENGTH CARTRIDGE BRASS  
Designed for use in fully rifled barrels only

# SLUGGER RIFLED SLUG

Our most popular, accurate, hard-hitting smooth bore slug. Slightly oversized for great smooth-bore shotgun performance, resulting in better sealing against the barrel wall for greater accuracy.

## SLUGGER HIGH VELOCITY

This higher velocity slug exits the barrel at 1800 fps, 13% faster than standard 1-oz. slugs. The 7/8-oz. Slugger High Velocity delivers more energy at 50 yards with flatter trajectory on deer than standard 1-oz. slugs. Produced in most popular slug loadings— 2 3/4" and 3" 12-gauge and 2 3/4" 20-gauge. Designed for the avid deer hunter using smooth bore guns.

SLUGGER HIGH VELOCITY RIFLED SLUG

\* 0.0 indicates yardage at which shotgun was sighted in.

## SLUGGER MANAGED-RECOIL

Devastating performance with 45% less felt recoil than full velocity Sluggers. Less recoil makes sighting-in more comfortable, while the accuracy and speed of second shots is greatly improved. And with effective energy out to 80 yards, it handles the majority of shotgun deer hunting ranges.

Slugger Rifled Slug's energy transfer and temporary wound cavity shown at 50 yards.

# PREMIER STS

## CHAMPIONSHIP DNA

Shoot to win with a world-class combination of shot-to-shot consistency and reloadability. The choice of champions at major skeet, trap, and sporting clays shoots across the country, Premier STS Target Loads are the benchmark for target-crushing performance and a favorite at the reloading bench. But don't take our word for it, ask the long list of Remington champions winning with Premier STS.

### 1 CRIMP

Improved design facilitates wad insertion and reduces the forces required for final crimp — a real plus in high output progressive reloading

### 2 REMINGTON SHOT

High antimony hard lead shot precision graded to insure perfectly round pellets with incredible uniformity for tight patterns

### 3 FIGURE 8 WAD

Remington Figure 8 Wad is engineered to compress evenly on ignition to cushion and protect the shot. Extra deep over-powder cup positively seals gases for consistent velocity — even in overbored guns

### 4 PREMIER STS BODY

High tensile polyethylene hull reloads longer, while providing an extra smooth finish for positive feeding in competition guns

### 5 FRESH MADE BRASS

Brass for easy resizing and long life

**NEW LOAD**

**PREMIER NITRO SPORTING CLAYS**

**COMPETITION. WE USE THE TERM LIGHTLY**

Smoke targets and conquer the competition with Premier Nitro Sporting Clays — the finest sporting clay loads in the world today. The shell's extra velocity gives you an added advantage for those long crossers — making target leads shorter for ultimate clay-crushing satisfaction. The unique Remington Premier gold hull has earned a reputation as one of the most “reloader friendly” designs ever to hit the clay target-shooting world.

# GUN CLUB CURE

## EVERY SHOT MATTERS

Ignite a fire of compassion and support with Remington Gun Club Cure. This shotshell isn't just about hitting targets; it's a powerful force for good. A portion of the proceeds from every purchase goes directly to children's hospitals and disease research, making your day at the trap, skeet, or sporting clays course a meaningful contribution to real families nationwide. Gun Club Cure's distinctive hull is not just a symbol of support; it is a testament to your dedication to a cause that truly matters.

Available in two 12-gauge loads; including a low-recoil option.

- 1 PREMIER STS HULL CONSTRUCTION**  
Made with the same internal dimensions as Remington's leading Premier STS hull
- 2 GUN CLUB SHOT**  
Made to the highest quality control standards
- 3 REMINGTON POWER PISTON WAD**  
Gives consistent velocity for higher scores
- 4 PRIMER/PROPELLANT**  
Carefully chosen for shot-to-shot consistency and a smooth feel

# GUN CLUB TARGET LOADS

## HIGH QUALITY. LOW COST

Spend less and shoot more. Remington Gun Club Target Loads are an excellent choice for a budget-savvy shooter, the highest quality budget shotshells on the market. Featuring Gun Club Grade Shot, Premier STS Primers, and Power Piston One-Piece Wads, these high-quality shells receive the same care in loading as our top-of-the-line Premier STS and Nitro 27 shells. Available in most gauges including low recoil loads, this shell is guaranteed to give you more bang for your buck.

- ▲ QUALITY MEETS AFFORDABILITY**  
Gun Club are the most consistent and reliable shells for a whole lot less
- ▲ LOADED TO PERFORM**  
Loaded with Gun Club Grade Shot, Premier STS Primers and Power Piston One-Piece Wads
- ▲ HANDLOADER APPROVED**  
Provides handloaders with unequalled reloading ease and hull longevity
- ▲ LOW RECOIL**  
Shoot more with less felt recoil. Enabled by advanced propellant technology, low recoil loads are great for young shooters, new shooters or anyone looking to shoot all day. Available in Premier STS, Gun Club and Gun Club Cure.

# LOW DECIBEL

**BREAK CLAYS WITH LESS RECOIL AND NOISE**

Remington Low Decibel is the best .410 Bore answer for shooting subsonic shotshells. With a muzzle velocity of only 550 fps, your recoil is reduced without sacrificing dense, clay-busting patterns downrange. Turn down the noise and turn up the fun with Remington Low Decibel.

- ▲ **EXPERTLY ENGINEERED PROPELLENT**  
Low velocity for pleasant shooting, less recoil and noise
- ▲ **ACCURATE WAD**  
Reliable patterns downrange for performance on target
- ▲ **QUALITY COMPONENTS**  
Uniform, precisely charged lead shot with optimal hardness
- ▲ **EASY & RELIABLE**  
Semi-auto & break-open action ready

# PETERS PREMIER BLUE PAPER SHOTSHELLS

**RETRO PAPER – MODERN PERFORMANCE**

Peters Blue brings you new, yet traditional style paper hull shotshells. Tuned for the modern trap, skeet and sporting clay shooter, the paper hulls reduce felt recoil for a more enjoyable day at the range. Peters Paper packs the same powerful components found in other Peters and Remington Premier loads. Enjoy the sweet smell of paper...and victory.

- 1 **PREMIER LEAD SHOT**  
High antimony lead shot screened to produce uniform performance and clay busting accuracy
- 2 **PETERS PAPER HULL**  
Shoot longer with less felt recoil. The sweet smell of victory
- 3 **COMPETITION WAD**  
Retro look, modern performance. Produces tight patterns downrange
- 4 **PRIMER/PROPELLANT**  
Carefully selected and paired to produce even ignition and consistent velocity
- 5 **ALL BRASS HEAD**  
For the utmost in reliability and reloadability

# THE DEADLIEST MUSHROOM. NOW HANDGUN READY.

## NEW CORE-LOKT HANDGUN

Coming hunting season '24, Core-Lokt Handgun lets every pistol and revolver hunter shoot the ammo that has dropped more deer than any other since 1939. Proven Core-Lokt hollow point projectiles are optimized for ultimate handgun hunting performance with true Deadly Mushroom expansion on big game.

Tuned for pistol-length barrels and velocities, get ready for your next whitetail, hog, or black bear excursion with Core-Lokt Handgun.

### CLASSIC CORE-LOKT PROJECTILES

The superior 2X expansion, high weight retention and deep penetration of The Deadliest Mushroom in the Woods, with a unique hollow point design

### PREMIER NICKEL CASES

Smooth, reliable, flawless function in any type of handgun or revolver

### HANDGUN HUNTING APPROVED

Heavy-for-caliber bullets, effective and powerful

For more information on ballistics, see pages 108-118.

Golden Saber Bonded penetrates to optimal performance depth with maximum energy and force transfer for stopping power.

# GOLDEN SABER DEFENSE

**OPTIMIZED FOR FULL-SIZE OR COMPACT HANDGUNS**

Built on a trusted law enforcement platform, our personal defense ammunition features high-performance Golden Saber Brass Jacketed Hollow Point (BJHP) rounds, ensuring massive expansion and deep penetration for superior stopping power. The premier nickel-plated cases resist corrosion and cycle reliably even after extended storage. Available in full size and compact options for pistols and revolvers.

Golden Saber Defense Compact is specifically designed for concealed carry, providing substantial terminal performance from shorter-barreled firearms.

- 1 **EXCLUSIVE BRASS JACKET**  
Precision nose cuts control expansion and optimizes energy transfer
- 2 **CASE MOUTH AND PRIMER WATERPROOFING**  
For maximum reliability
- 3 **NICKEL-PLATED CASES**  
To reduce oxidation and improve feeding and extraction
- 4 **SPECIALLY TREATED POWDERS**  
To suppress muzzle flash

Optimal Penetration & Expansion for Threat-Stopping Performance.

# HIGH PERFORMANCE. ON TARGET OR GAME

## HTP HIGH TERMINAL PERFORMANCE

### MORE VARIETY – MORE DEADLY

Equally as good for personal defense or bringing down big game, Remington High Terminal Performance packs ample punch to deliver instant stopping power when you need it most. Manufactured with premier primers, brass cases and propellants, HTP is available in all major defense calibers, in standard and many +P loadings. Because when you've got a job to do, we've got the load to help you get it done.

#### 1 FIVE BULLET OPTIONS

Hollow point and soft point bullets engineered for each cartridge

#### 2 38 SPECIAL TO 45 COLT

From micro-compact defensive handguns to your favorite freezer-filler revolver, HTP Handgun offers a wide array of cartridge, grain weights and +P options

## ED SUPER CARRY™

More capacity than a 9MM. More effective than a 380 Auto, 30 Super Carry is taking the defensive world by storm. Available from Remington in HTP Handgun and range-ready UMC Handgun.

# RANGE CLEAN

CLEAN SHOOTING CONFIDENCE

From lead-free primers to specially designed bullets, economical Remington Range Clean cartridges virtually eliminate lead exposure at the firing line. A must-have for shooters who frequent indoor ranges, it's jacketed bullet's enclosed base prevents lead exposure upon firing. Standard bullet weights duplicate the ballistics of conventional loads.

- ▲ DESIGNED FOR INDOOR RANGES
- ▲ LEAD-FREE PRIMER
- ▲ SAME WEIGHT AS CONVENTIONAL LOADS
- ▲ AVAILABLE IN 380 AUTO, 9MM LUGER, 40 S&W, AND 45 AUTO

REMINGTON RANGE CLEAN				
CARTRIDGE	INDEX NO.	ORDER NO.	BULLET WT. (GR.)	BULLET TYPE

45 AUTO	RC45AP8	27687	230	FNEB

KEY: FNEB = Flat Nose Enclosed Base  
For more information on ballistics, see pages 108-118.

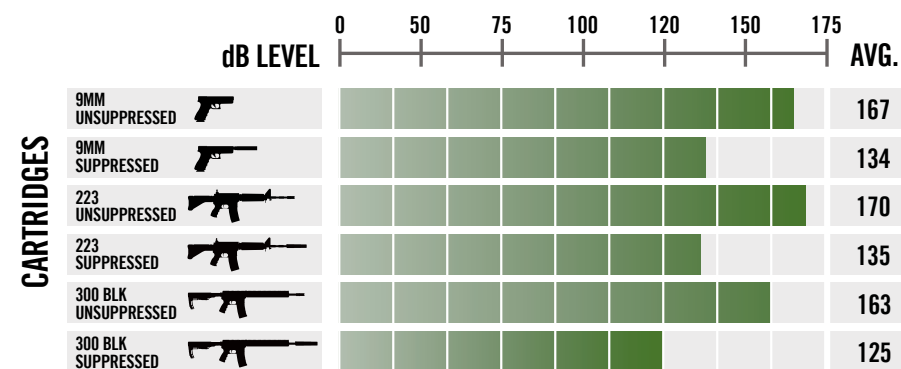

# SUBSONIC HANDGUN

AMMUNITION FOR THE SILENT REVOLUTION

Remington Subsonic Handgun ammunition is specifically designed for shooting in suppressed pistols. Engineered for maximum performance at subsonic velocities and — after a long session at the range — easier cleaning thanks to enclosed base bullets that virtually eliminate leading in suppressor ports.

## SUPPRESSED vs UNSUPPRESSED

REMINGTON SUBSONIC HANDGUN

NEW

# UMC LEADLESS

LEAD-FREE RANGE PERFORMANCE

Re-engineered and retooled, UMC Leadless features a new generation of improved, non-lead bullets ready for your range. New Catalyst clean priming technology eliminates lead exposure at the firing line, while copper jacketed compressed core projectiles reduce splash back from steel targets near or far. UMC quality and dependability you trust.

Duplicating the ballistics of conventional core ammunition, **new UMC Leadless is available in 223 Remington and 9mm Luger.**

- ▲ NEW AND IMPROVED BULLET CORE**  
New, lead-free core combined with a classic copper jacket duplicates the range performance of traditional FMJ ammunition
- ▲ CATALYST PRIMER**  
The industry's leading heavy-metal-free primer is now found in UMC Leadless ammunition
- ▲ ANY RANGE PERFORMANCE**  
UMC quality you trust, now with a new option for those required or choosing to shoot lead-free ammo
- ▲ PISTOL, RIFLE, OR PCC**  
UMC Leadless is available in common pistol, rifle and PCC cartridge offerings including 9mm Luger and 223 Remington

NEW

# RANCH HAND

**YOUR RIMFIRE RIDE OR DIE**

New for 2024, Ranch Hand is Remington's most dependable 22LR round ever made. Featuring our new and improved .22 technology, each round offers Premier high performance in your gun and on your target. Ideal for small game or varmint hunting, Ranch Hand's copper plated projectiles are available in a hollow point or round nose.

Tested to ensure flawless feed, function and fire across all common 22LR handguns and rifles, no matter your firearm of choice. Yeehaw y'all.

### PERFORMANCE ON GAME

New priming technology, quality and consistency

### IMPROVED RIMFIRE TECHNOLOGY

Remington's improved rimfire manufacturing ensures consistent high quality, accuracy and on-target performance with reliable ignition and longer life for your barrel

NEW

# 22 GOLDEN HUNTER

**RIMFIRE HUNTING'S GOLD STANDARD**

Small game beware! Golden Hunter is ready for a 22LR takedown. At home on a squirrel, rabbit, small game, or varmint hunt up to coyote, 22 Golden Hunter reliably expands for quick force transfer on target. The 40-grain hollow point projectile penetrates to optimal depths while performing in any barrel length at common hunting distances. Rifle or pistol, 22 Golden Hunter is your best choice in rimfire hunting rounds.

### 1 IMPROVED RIMFIRE TECHNOLOGY

Remington's improved rimfire manufacturing ensures consistent high quality, accuracy and on-target performance with reliable ignition and longer life for your barrel

### 2 PRECISION HOLLOW POINT

Designed for small game. Fast expansion meets optimal penetration

### 3 GOLDEN BULLET HERITAGE

22 Golden Hunter builds on the proven performance of 22 Golden Bullet – Remington's most popular rimfire round

### 4 CAREFULLY ENGINEERED PROPELLANT

Chosen for ideal velocities in rimfire handguns or rifles

## SUBSONIC

**SUBSONIC – 22 LONG RIFLE LOW VELOCITY**

Remington Subsonic delivers superior stealth and consistency below the sound barrier. Its tack-driving rimfire performance is manufactured with tight velocity control to eliminate supersonic cracks. Driving a copper-plated, hollow-point bullet optimized for reduced lead buildup in suppressor ports and maximum effectiveness at lower velocity.

## 22 TARGET

**STANDARD VELOCITY – 22 LONG RIFLE**

With 40-grain round nose bullets propelled by powder and primer charges of exacting consistency, Remington 22 Target ammunition delivers match-grade precision and championship performance in every round.

## 22 GOLDEN BULLET

**HIGH VELOCITY – 22 SHORT & 22 LONG RIFLE**

Legendary 22 Golden Bullet Plated Round Nose and Hollow Point bullets are engineered for easy cycling and solid performance. High Velocity increases downrange energy, extending your effective range. Improved priming compound ensures consistent ignition at a great value.

## CBEE 22

Combines low noise with excellent shot-to-shot consistency. Its 33-grain Plated Truncated-Cone Hollow Point bullet is ideal for dispatching varmints and small game at close range as quietly as possible. Its tiny report makes it an excellent choice for new shooters as well.

# NEW AND IMPROVED RIMFIRE

Improved rimfire quality means a new generation of even more dependable rimfire loads from Remington. In 2024, Remington Ranch Hand and 22 Golden Hunter join the family.

What's your go-to 22LR load? Your rimfire ride-or-die needs to be a dependable round that performs with every squeeze of the trigger whether in a handgun and rifle. Regardless your chosen platform, Ranch Hand's round nose and hollow point rounds bring premier performance, quality and accuracy to your rimfire rig. Find more information on page 81.

For the small game hunter, 22 Golden Hunter brings Golden Bullet style to a new precision hollow point. Penetrating to optimal depths with quick expansion, Golden Hunter performs accurately across common hunting distances. See page 81.

Both new loads are backed by Remington's new rimfire technology. They're built for a new era of dependability.

Higher quality, higher standards and a 22 product for every hunter and shooter's need. Look for even more rimfire options coming from the engineers at Remington.

## NEW QUALITY. NEW AMMO.

### UNDER THE HOOD - REMINGTON RIMFIRE'S IMPROVEMENTS

At the heart of every Remington rimfire round is quality, in-house made components designed to work together. Proudly loaded in Lonoke, Arkansas, look inside a new Remington 22LR round to see the improvements we've made – and why.

- 1 REFORMULATED PRIMING MIX**  
A new chemical formulation results in a more energetic mix – meaning less priming compound is used to generate the same velocity as the rimfire rounds you've shot in the past. This more consistent catalyst means more consistent pressure, velocity and better accuracy.
- 2 IMPROVED BRASS WALLS AND RIM**  
Thicker, more robust walls and rim handles pressure better and stands up to the highest demands of loading consistency
- 3 SHELL HEAD GEOMETRY**  
Updated shell head geometry results in a more even rim cavity for a better hold on priming mix.
- 4 PRECISION LOADING TECHNIQUES**  
22LR case fully manufactured before going to loading for consistent length, heading and ultimately bullet seating.

## HOW REMINGTON RIMFIRE IS MADE

22 Long Rifle cartridges are made at Remington by the billions. Yet that volume of ammo isn't made easily. Continue reading to explore the steps in our precise production process and discover how Remington manufactures our 22 daily.

- CORE**  
Bullet core formed from lead strip into the rough size and grain weight of a finished projectile
- PLATING**  
Core is plated with brass or copper jacket for tough performance on target
- BULLET FORMING**  
Bullet's nose, heel and diving band formed in a press, grooves added
- BRASS CUP & DRAW**  
Brass is stamped out of a sheet and formed into a cup, then drawn up to begin the shell making process
- 2ND DRAW**  
Brass continues to be worked with a series of dies and punches to lengthen shell and begin forming the mouth of the bullet
- HEADSTAMP**  
Rim of the bullet and internal geometry of shell finished, new Remington R added
- PRIMING**  
Priming mix inserted into rim cavity then dried
- LOADING**  
In a proprietary process, Remington 22LR shells, propellant and projectile come together at high speed, resulting in a finished cartridge. Each loaded round is inspected by both modern technology and proud American manufacturing employees to ensure quality.

## 22 VIPER

**HYPER VELOCITY – 22 LONG RIFLE**

These Plated Truncated Cone Solid Bullets are renowned for their smooth feeding in any automatic pistol or rifle. The large diameter of the flat nose imparts tremendous shock at the entry point, while the solid bullet retains all of its weight to penetrate deep. These hyper-velocity loads hold their own at the target board as well. For fast-striking, 22 performance, Viper can't be beat.

## 22 YELLOW JACKET

**HYPER VELOCITY – 22 LONG RIFLE**

22 Yellow Jack brings the smooth feeding and excellent penetration of a Truncated Cone combined with the stopping power and massive wound channel of a hollow point. These bullets are specially designed to deliver maximum on-game energy with excellent precision. Yellow Jacket leaves a hyper-velocity sting wherever they're dispatched.

## 22 CYCLONE

**HIGH VELOCITY – 22 LONG RIFLE**

Tin cans. Rabbits. Or a bulls-eye. High velocity increases downrange energy, extending your effective range with 38-grain hollow point terminal performance. No matter what you put in your sights, Remington Cyclone is the perfect 22 rimfire ammunition for just about any occasion.

## 22 THUNDERBOLT

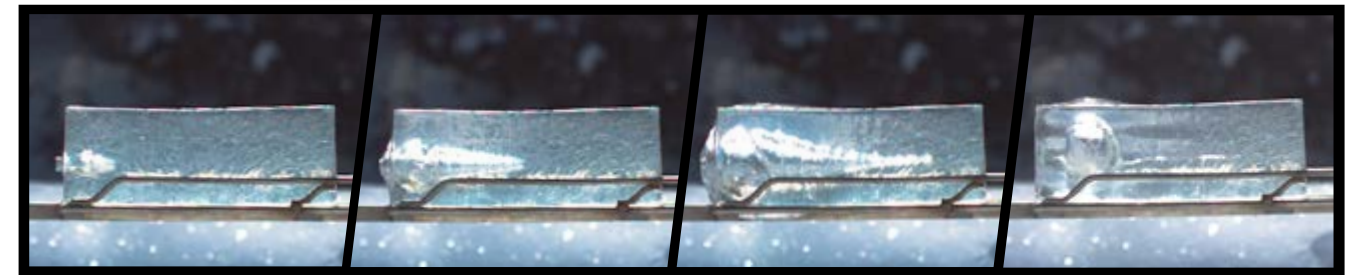

**HIGH VELOCITY – 22 LONG RIFLE**

They've become the outstanding favorite of 22 owners the world over. These round nose bullets in high-velocity loads cover the broadest range of 22-caliber excitement. No wonder 22 Thunderbolt is our best-selling and most popular round of all time.

## PREMIER MAGNUM RIMFIRE & MAGNUM RIMFIRE

Premier Magnum Rimfire cartridges are super-tuned to deliver unmatched shot-to-shot consistency, pin-point accuracy and explosive terminal performance. It's the ultimate choice for small game and varmint hunting. Available in 17 HMR and 22 WIN Mag.

Premier Magnum Rimfire 17 HMR 17-grain bullet shows explosive energy transfer on impact

# 2024 WATERFOWLER BULLET KNIFE

## THE REMINGTON ART COLLECTION

As in years past, the Bullet Knife is accompanied by a unique work of art. 2024's Waterfowler is celebrated in "Tangled Moment" painted by award-winning wildlife artist Scot Storm.

## INTRODUCING 2024'S WATERFOWLER

### THE BULLET KNIFE REBORN

Some say America's days of manufacturing are over. They say the steel that forged this great nation - in factories across our land and inside every citizen - just isn't as tough as it used to be.

### Remington begs to differ.

Building on a century long cutlery tradition, Remington proudly introduces the limited edition, hand crafted, American-made Bullet Knife, The Waterfowler.

### CELEBRATE THE ANNUAL TRADITION

Remington's iconic Bullet Knife; hailed as America's most collectible pocket knife.

### PROUDLY MADE IN THE USA

Handmade assembled, and finished to the highest standards by skilled American craftsman using premier materials

### A GENERATIONAL ICON

Durable 1095 Carbon Steel Blades with a Rockwell hardness of 56-59 RC means this heirloom knife will stand the test of time to be handed down to the next generation

### CUTTING-EDGE FEATURES & TIMELESS DESIGN

1095 Carbon Steel Clip point, long spey partially serrated blade, a birding gut hook and the famous nickel silver Bullet Shield inlayed in a genuine jigsaw bone handle.

## REM OIL

The quick, easy way to keep your firearms performing to their full potential. Rem Oil cleans dirt and grime from exposed metal surfaces, while displacing non-visible moisture from metal pores. It also protects internal and external metal parts from rust and corrosion. And the exclusive formula creates a thin, long-lasting film that keeps actions working smoothly by reducing metal-to-metal wear.

Available in:  
 10-oz. Aerosol Can (#24027)  
 6-oz. Spray Pump (Moistureguard) (#18378)  
 4-oz. Aerosol Can (#26610)  
 2-oz. Squeeze Bottle with Child Safe Cap (#18366)  
 1-oz. Squeeze Bottle with Child Safe Cap (#26617)

## REM OIL WIPES

Rem Oil Wipes are an efficient way to protect your firearms. Each wipe is treated with Rem Oil, for a quick and easy application of one of the world's most trusted cleaners and lubricants. The individually packaged Rem Oil Wipes are convenient for travel or in your field pack, while the sixty-count canister is a perfect companion for everyone's workbench.

Available in:  
 Travel Size (24 Count) (#16325)  
 60-Count Pop-Up Canister (#18384)  
 12 Individually Wrapped 6" x 8" Wipes (#18411)  
 Single Packs In Counter Display (#18471)

## REM DRILUBE

Formulated for superior lubricity without leaving any dust collecting residue behind and is perfect for protecting your firearm in sub-zero temperatures

Rem DriLube lubricant provides a tough, non-congealing film without the residue of dry graphite lubes

Keeps firearms functioning dependably to -40°F

Available in:  
 4-oz. Aerosol Can (#18396)

## SHOTGUN CLEANER

Cleans trigger groups, gas ports, choke tube threading, receivers, chambers, barrels and magazine tubes

Dissolves powder residue, fouled lubricants, burnt carbon deposits and gunk

Blasts away gummy caked-on grime from hard-to-reach areas such as ejectors, firing pin assemblies, trigger components and bolt recesses

Available in:  
 18-oz. Aerosol Can (#18472)

## BRITE BORE SOLVENT

Dissolves carbon and powder fouling, removes copper, lead and plastic deposits

Handy size for field or range use

Low odor—contains no CFCs

Available in:  
 6-oz. Aerosol Can (#18394)  
 2-oz. Squeeze Bottle with Child Safe Cap (#18367)

## 40-X BORE CLEANER

Formerly Remington Bore Cleaner

40-X name ties into the product's origins in Precision Benchrest Shooting

Formulated for rifles to improve cleaning, accuracy and performance

Fast and easy to use—no soaking or foul odors

Contains high polishing compounds to make your bore mirror-clean

Available in:  
 4-oz. Squeeze Bottle with Child Safe Cap (#18397)

## REM ACTION CLEANER

Designed to ensure smooth, reliable gun function in all weather conditions

Cleans dirt, powder residue, and caked on lubricants from actions & fire control mechanisms without disassembly

Dissolves used lubricants, including grease and oils to produce a clean, dry surface

Quick drying; leaves no residue

Contains no CFC's or Carcinogens

Available in:  
 4-oz. Aerosol Can (#19925)  
 10-oz. Aerosol Can (#18395)

## REM GUN GREASE

Biodegradable and non-toxic  
 Non-melt formula

Non-Melt Formula

Wide temperature range from -20F to 500F

Protects all sliding parts, threads and hinge points

Protects against rust and corrosion

Safe for finished stocks, coated metals and polymer parts

Available in:  
 .5-oz. Squeeze Bottle (#18501)

**NEW**

### LEAD REMOVING WIPES

Wipes away most metal, dust, and debris from your hands, arms, face, and body.

Pre-moistened with gentle pH balanced skin solution

Neutralizes static charge of metal dust

Extremely convenient and portable

Made 100% in the USA

Available in 60-count Pop-Up Cannister

#RLRW
