

### Core-Lokt 450 Bushmaster & 350 Legend

The Deadliest Mushroom in the Woods has been a whitetail's worst enemy since 1939. Core-Lokt's lineup is bigger and better in 2022 with new 450 Bushmaster and 350 Legend options. 350 Legend Core-Lokt packs trusted terminal performance into a straight wall cartridge, with high velocities and an ideal fit for both MSR and bolt-action rifles. New 450 Bushmaster Core-Lokt's pointed soft point 260-grain projectile lays down deer with easier feeding and consistent function in your MSR platform.

### FEATURES

- New 450 Bushmaster and 350 Legend loads
- 450 Bushmaster pointed soft point and 350 Legend soft point projectiles provide broad frontal areas for high-energy impact and rapid expansion
- Tapered copper jacket mechanically locked to solid lead core for progressive expansion
- Reliable Remington brass, propellants and primers
- Core-Lokt provides more cartridge and load options than any other deer ammunition. Visit <https://www.remington.com/rifle/core-lokt/> for a full list
