RINGS/MOUNTS/BASES

Steel Rings

Weaver's new Steel Rings weld your riflescope to your firearm with solid steel construction. Plus, they give your rig an edgy look with a new angular shape. Torx screws ensure positive contact. And, of course, Weaver's legendary cross-lock design provides the ultimate grip to handle even the stoutest recoil.

Features & Benefits

- Solid steel construction for added strength
- Utilizes Weaver's cross lock design for maximum security
- Rings include Torx screws for positive gripping strength
