T-Series™ XR Fixed-Power Target Scopes

Weaver's new T-Series™ XR fixed-power riflescopes combine legendary T-Series target scope performance with an all-new side-focus parallax adjustment system. No matter how far off-center the shooter's eyepiece-to-eye alignment, the point of impact will remain true. These argon-purged scopes feature the incredibly-precise Micro-Trac® Adjustment system for competition-level, completely independent windage and elevation control with $\frac{1}{8}$ -inch click values. The fully-multicoated optics offer superior contrast, eliminate glare and deliver professional-grade clarity.

Features & Benefits

- Argon-purged tubes to eliminate internal fogging
- Side-focus parallax adjustment
- Include sunshade for clear viewing
- Improved Micro-Trac® erector system for precise adjustment
- $\frac{1}{8}$ -inch click value at 100 yards for competition-level accuracy
